PROJECT SUMMARY:

This project aims to enable more inclusive HE leadership, addressing the underrepresented pool of talent and aspiring leaders and being more responsive to the changing educational landscape. ULEAD4ALL does so by providing aspiring university leaders from underrepresented groups with better tools to thrive in their positions, as well as by targeting those current leaders who benefit from an old-fashioned system to ignite the required cultural change at their institutions. This first track of the programme will cater to those who are underrepresented in university leadership, due to their socio-economic background, ethnicity, religion, sexual orientation, gender identity, age or disability. The inclusion of these target groups recognises the intersectionality of identities and how they can intersect to produce interlocking oppressions or privileges. The track for current leaders will focus on inclusivity to better prepare them to support the next generation of leaders and become more innovative and informed leaders with an EDI lens.
