The partnership is composed by experienced teams that worked in previous projects, as well as new partners that will give their contribution to this new stage and to the spreading of sign language all over Europe.

The Spread Lesson project aims to develop a platform in which teachers and trainers of deaf pupils can upload and download self-made materials that can be used in pedagogical practices with deaf pupils. This share platform will be integrated in the Spread the Sign dictionary. Users will have registered access, so no jeopardizing will be allowed to other users or contents. At the same time, a Google Maps function with sign language videos with names of cities, buildings and other objects, will be incorporated in the platform. Through these tools, teachers of deaf students will be able to teach geography better, share documents, inspiring other teachers across Europe.
