## Our PhD graduates

### A.y. 2022/2023

**Raffaella Lamuraglia**

Thesis title: Unveiling the timeless beauty: innovative coatings for preserving Roman frescoes  
PhD in Chemistry in collaboration with IIT

### A.y. 2022/2023

**Marco Pizzolato**

PhD in Chemistry financed by a Company

### A.y. 2020/2021

**Seyedeh Somayeh Taghavi**

Thesis title: Valorization of biomass to chemicals using promising catalysts  
PhD in Chemistry

### A.y. 2019/2020

**Danny Zanardo**

Thesis title: Light-driven processes for fuel production and cultural heritage remediation  
PhD in Chemistry

### A.y. 2018/2019

**Cristina Pizzolitto**

Thesis title: Development of heterogeneous catalysts for fuel and chemicals production  
PhD in Chemistry

### A.y. 2016/2017

**Alberto Olivo**

Thesis title: Development of titanium dioxide based photocatalytic systems for CO<sub>2</sub> photoreduction  
PhD in Chemistry

## **A.y. 2013/2014**

**Valentina Nichele**

Thesis title: Innovative and versatile heterogeneous catalysts for hydrogen production from renewable

PhD in Chemistry

## **A.y. 2011/2012**

**Valentina Trevisan**

Thesis title: Sviluppo di materiali a base di  $\text{TiO}_2$  per l'abbattimento di inquinanti

PhD in Chemistry

## **A.y. 2004/2005**

**Elena Ghedini**

Thesis title: Uso di tensioattivi e copolimeri a blocchi per la sintesi di catalizzatori solidi acidi

PhD in Chemistry
